

I'm a seasoned Designer and Art Director looking to join a collaborative team who shares a passion for strategic and authentic design.

WORK EXPERIENCE (14+ YEARS)

Consume & Create | February 2022 - Current | Denver, CO Art Director

I work closely with a small team of designers, copywriters, and developers on projects ranging from brand development, web design, package design, branded environments and experiential design. Clients I work closely with include New Belgium Brewing Co, Leopold Brothers, Remedy Medical Properties and LiveNation.

Trommler Creative, LLC | May 2012 - Current | Everywhere Creative Director/Owner

"Trommler Design, LLC" is my company I perform freelance work under. I have had the honor of working with amazing clients such as Google, Atria Senior Living, Farm Credit Mid-America, MedWater, Dark Arts Whiskey House, Old Louisville Whiskey Company, as well as some talented musicians. This experience has provided me with the basic skills in running a small business, project management, budgeting, and communication.

VIA Studio | March 2019 - May 2021 | Louisville, KY Associate Creative Director (1 year 2 months) / Creative Director (6 months)

Responsibilities included leading the design department, running creative point on most accounts, and mentoring junior designers. The studio's focus was web design, brand development, directing photo and video shoots, traditional advertising and digital advertising.

Fieldtrip | May 2013 - March 2019 | Louisville, KY Designer (2 years) / Art Director (3 years) / Associate Creative Director (1 year)

Throughout the six years spent here, I helped grow the Creative Department from two, to - at one point - five, and saw the agency grow from twelve to twenty seven. Being a part of this rapid growth taught me to be extremely adaptable and process driven. This job not only gave me the opportunity to gain experience with branding and traditional + digital marketing, I was able to learn the basics of managing a small team and creative direct my own accounts.

Cafe Press | September 2010 - September 2012 | Louisville, KY Graphic Designer

I designed and constructed the retail store displays, created marketing material, helped customers design custom merchandise, and trained new designers on various printing methods. Because this was the first and only brick and mortar store for Cafe Press, I played a large role in the creation of streamlined processes.
